Specialty Pharmacy: Specialty medications can be filled one time at a retail pharmacy. All subsequent fills must be obtained through Benecard Central Fill Specialty Pharmacy. Specialty medications are limited to a 30-day supply.

Dispense as Written: If you ask the pharmacist for a brand name product instead of its generic without a physician indicating dispense as written (DAW), you are responsible for your copayment plus the difference in cost between the brand and the generic.

Additional Savings

Present your BeneCard PBF ID card at participating network pharmacies to receive discounts on medications that may not be covered by your plan.

Additional Benefits

Preventative Care

Certain drugs and vaccines are classified as Preventative Care and covered under your prescription benefit according to current legal requirements. Depending on your plan, Preventative Care drugs may be available to you at a \$0 copayment. A valid prescription from your physician is required. Coverage requirements and items covered are subject to change.

Exclusions

Your prescription program covers most Medically Necessary, Federal Legend, State Restricted, and Compounded Medications that by law cannot be dispensed without a prescription. Quantity limits and dosage requirements will follow FDA guidelines in most instances.

Your program does not cover:

- Medications that don't require a prescription (even if one is written), except those covered by your plan as Preventative Care.
- Medications that are not considered medically necessary.
- Medications prescribed off label, as they are not prescribed in accordance with FDA-approved use, or medications prescribed or dispensed in a manner contrary to accepted medical practices.
- Medications not dispensed at a pharmacy and/or medications administered by a healthcare professional, including medications you receive at your doctor's office, in a hospital, clinic, or other care facility.
- Medications for which no charge is made to you, or for which the cost is recoverable under a government program, Workers' Compensation, or occupational disease law.
- Vaccines (except those covered under Preventative Care)
- Immunological, allergy sera, biological sera, blood plasma, and charges for the administration or injection of medications.
- Drugs labeled for "Investigational Use" or as experimental.
- Claims from sanctioned or excluded providers.
- Needles, syringes, and injection devices, except with insulin.
- Erectile dysfunction drugs are covered with restrictions.

This list is subject to change and may not contain all exclusions. Visit benecardpbf.com for more coverage information.
